

# 10x

**Attention**  
**INNOVATIVE-MINDED FEDS!**

Did you know that the General Services Administration (GSA) runs its very own technology investment program that gets all of its project ideas from federal employees like you?

GSA's 10x program is accepting your ideas on how the government can use technology to improve its delivery of services. Act now! **The deadline to submit an idea for this round of funding is March 23rd.**

### HOW IT WORKS:

**Describe your idea in about 3 sentences (1,000 character max)**

**Submit your idea to 10x through our website**

**If your idea is accepted, 10x will handle the rest**

### NEXT STEPS:

**That's all there is to it! We'll handle everything, including assembling and funding a team of talented technologists to research your idea.** We welcome your involvement and interest as the project unfolds, but we don't require it. Here are a few of the highly impactful projects 10x has supported in recent years:

 **LOGIN.GOV**

  
**USWDS**

**code\_**

**SORN  
DASH**

### HOW YOU CAN GET INVOLVED:

We accept ideas on a wide-range of topics from the government technology ecosystem, but we're specifically interested in funding projects that:

- 1. protect and promote the natural environment**
- 2. address equity concerns in government services**
- 3. promote transparency and public engagement with the government**

Visit [10x.gsa.gov](https://10x.gsa.gov) for more details on how to submit an idea, our investment themes, and more.

**REACH OUT!  
WE'D LOVE TO  
HEAR FROM YOU.**

If you'd like someone from the 10x team to speak with you and your colleagues, just email us at [10x@gsa.gov](mailto:10x@gsa.gov). We can talk you through the whole process.
